

# HARE & HUMPHREYS

YOUR MASTER SPECIALISTS IN CONTEMPORARY DECORATION & EXCEPTIONAL FINISHES ARE EXCITED TO ANNOUNCE THE OPENING OF OUR NEWLY REFURBISHED STUDIO AND OFF-SITE PRODUCTION FACILITY.

In a relaxing environment, our clients and guests are warmly welcomed to discuss their concepts and ideas with us.

Our focus will always be dedicated to offering guidance, ideas and suggestions, all in the pursuit of transforming your vision into reality.

For the undecided, we offer inspiration, thought provoking alternatives and a huge array of samples to inspect that will facilitate and stimulate decision making.

Whilst the objective is to arrive at a happy and positive conclusion of plans, we appreciate that important decisions need the appropriate time to be fully considered.

Our extensive sample library holds a vast range of up to 1,000 fine finished specimens available to view. From left to right below the large example samples are:

- 1) Trompe l'oeil faux-wood grain
- 2) Painted floral Japanese mural on 23.5 carat gold leaf
- 3) Bas relief
- 4) Lacquered and partially gilt Jean Dunand artwork
- 5) Faux marble.

In addition, our expert artisans are always on hand to modify and develop a customer's own samples or to work dynamically with clients to create bespoke finished samples in the stable environment of our large air-conditioned production facility.

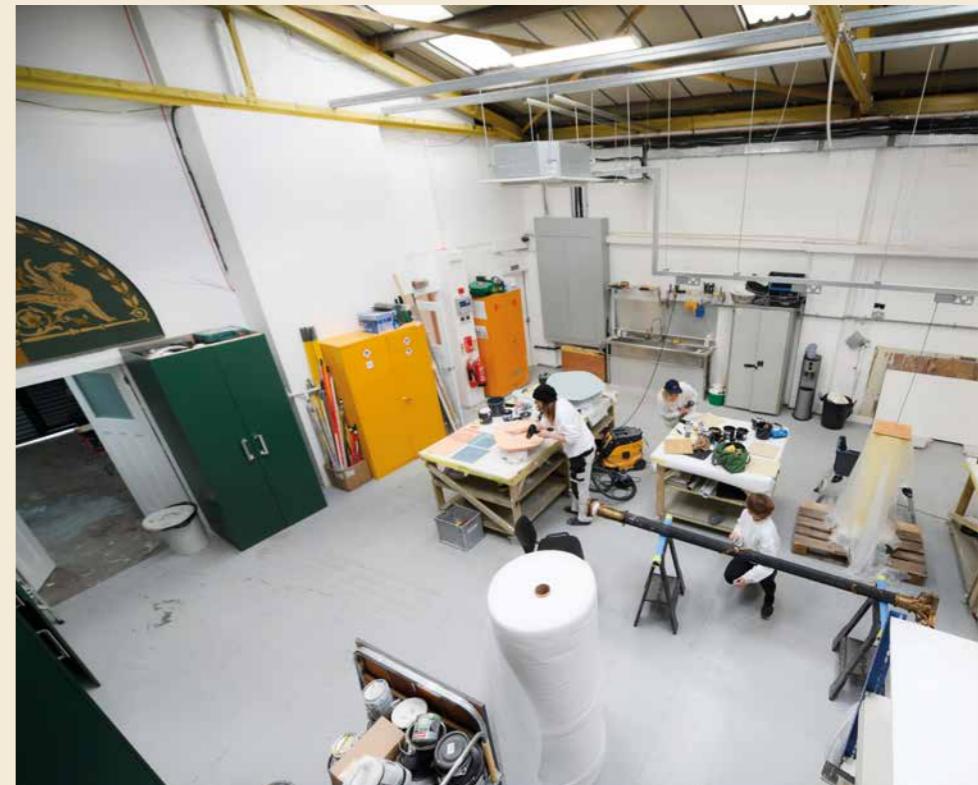

Clockwise you can see gold leaf being applied to column capitals, a complete wooden column, decorative motifs and a bespoke tabletop in the final stage of preparation.

Working off-site in controlled dust free conditions preserves the applied high-quality finishes and reduces the potential for damage.

We utilise our workshop facility to promote continuity and professional development training (cpd) to develop team skills. It will also be the base for our apprenticeship programme being launched in 2026.

In 2026, we plan to convene a series of customer focused workshops, concentrating on selected specific finishes where clients and designers can experience our in-house expertise through the intricate processes involved in producing a variety of exquisite finishes - all in a bespoke and intimate atmosphere.

## HARE & HUMPHREYS

Founded in 1987, we are one of Britain's leading exponents of the art of painting, gilding, conservation and decoration of historic and contemporary buildings - delivering our expertise both nationally and internationally.

### OUR SPECIALIST SERVICES

Our team of highly skilled painters, decorators, gilders and conservators can manage diverse projects, from restoring a listed building to creating bespoke finishes in contemporary interiors. We can provide a range of interior design finishes for example painting, graining, gilding, trompe l'oeil, polished plasters, wallpaper and embossed leather.

### TO VISIT OUR NEW STUDIO

### OUR PLAN FOR 2026 AND BEYOND

2025 began with the appointment of new management with a dynamic vision and mandate to expand opportunities in the conservation & heritage sector as well as generate controlled growth whilst fully respecting and retaining the traditions and ethics of the company. Hare & Humphreys new MD Thomas Wallerand states that "our founding principles of quality, fairness, integrity and a warm customer focussed service will remain implicit in all that we do as we grow our business, and our people without compromising customer satisfaction into 2026 and beyond"
